Aduis.com

Calculer avec les dizaines

1. Compare ! Quelle différence vois-tu ?

$3 + 2 = 5$

$30 + 20 = 50$

$5 + 3 = \underline{8}$ $7 + 3 = \underline{10}$ $6 + 3 = \underline{9}$

$50 + 30 = \underline{80}$ $70 + \underline{30} = \underline{100}$ $60 + \underline{30} = \underline{90}$

$4 + 2 = \underline{6}$ $8 - 3 = \underline{5}$ $10 - 4 = \underline{6}$

$40 + \underline{20} = \underline{60}$ $80 - \underline{30} = \underline{50}$ $100 - \underline{40} = \underline{60}$

2. Complète les chiffres manquants :

$20 + \underline{50}$

$30 + \underline{40}$ **70** $50 + \underline{20}$

$10 + \underline{60}$ $60 + \underline{10}$

$0 + \underline{70}$

$40 + \underline{70}$

$50 + \underline{80}$ **90** $80 + \underline{40}$

$70 + \underline{60}$ $10 + \underline{10}$

$20 + \underline{50}$

$100 - \underline{60}$

$50 - \underline{10}$ **40** $30 + \underline{10}$

$20 + \underline{20}$ $40 + \underline{0}$

$70 - \underline{30}$

$10 + \underline{70}$

$0 + \underline{80}$ **80** $40 + \underline{40}$

$20 + \underline{60}$ $70 + \underline{10}$

$30 + \underline{50}$

$30 + \underline{20}$

$10 + \underline{40}$ **50** $50 + \underline{0}$

$20 + \underline{30}$ $0 + \underline{50}$

$40 + \underline{10}$

$30 + \underline{30}$

$90 - \underline{30}$ **60** $50 + \underline{10}$

$40 + \underline{20}$ $70 - \underline{10}$

$80 - \underline{20}$
