

Les multiplications de dizaines

1. Calcule d'abord avec les unités et ensuite avec les dizaines :

$4 \times 1 = \underline{4}$	$4 \times 10 = \underline{40}$
$2 \times 1 = \underline{2}$	$2 \times 10 = \underline{20}$
$6 \times 1 = \underline{6}$	$6 \times 10 = \underline{60}$
$9 \times 1 = \underline{9}$	$9 \times 10 = \underline{90}$
$3 \times 1 = \underline{3}$	$3 \times 10 = \underline{30}$
$7 \times 1 = \underline{7}$	$7 \times 10 = \underline{70}$
$1 \times 1 = \underline{1}$	$1 \times 10 = \underline{10}$
$5 \times 1 = \underline{5}$	$5 \times 10 = \underline{50}$
$8 \times 1 = \underline{8}$	$8 \times 10 = \underline{80}$
$10 \times 1 = \underline{10}$	$10 \times 10 = \underline{100}$
$0 \times 1 = \underline{0}$	$0 \times 10 = \underline{0}$

2. Compare les unités et les dizaines :

$5 \times 4 = \underline{20}$	$5 \times 40 = \underline{200}$	$2 \times 6 = \underline{12}$	$2 \times 60 = \underline{120}$
$4 \times 3 = \underline{12}$	$4 \times 30 = \underline{120}$	$3 \times 7 = \underline{21}$	$3 \times 70 = \underline{210}$
$1 \times 5 = \underline{5}$	$1 \times 50 = \underline{50}$	$6 \times 1 = \underline{6}$	$6 \times 10 = \underline{60}$
$8 \times 2 = \underline{16}$	$8 \times 20 = \underline{160}$	$7 \times 9 = \underline{63}$	$7 \times 90 = \underline{630}$
$9 \times 6 = \underline{54}$	$9 \times 60 = \underline{540}$	$0 \times 8 = \underline{0}$	$0 \times 80 = \underline{0}$

3. Complète par >, < ou = :

5×40	$\textcircled{>}$	3×60	9×10	$\textcircled{>}$	2×40	3×80	$\textcircled{=}$	6×40
3×70	$\textcircled{<}$	5×50	2×80	$\textcircled{>}$	7×20	8×90	$\textcircled{>}$	5×70
7×20	$\textcircled{<}$	4×70	7×30	$\textcircled{<}$	6×70	4×40	$\textcircled{<}$	3×60
4×60	$\textcircled{>}$	8×20	6×50	$\textcircled{<}$	4×90	5×70	$\textcircled{<}$	6×90

4. Important : d'abord les multiplications, ensuite les additions ou soustractions !

$3 \times 5 + 5 \times 40 = \underline{215}$	$0 \times 7 + 4 \times 60 = \underline{240}$	$2 \times 7 + 3 \times 80 = \underline{254}$
$4 \times 6 + 7 \times 20 = \underline{164}$	$6 \times 9 + 3 \times 70 = \underline{264}$	$5 \times 5 + 5 \times 50 = \underline{275}$
$7 \times 2 + 8 \times 90 = \underline{734}$	$2 \times 4 + 6 \times 50 = \underline{308}$	$7 \times 8 + 4 \times 90 = \underline{416}$
