

REPRODUIRE LES FIGURES

Complète de façons que les figures soient symétriques par rapport à l'axe !

The grid contains eight figures, each with a vertical red line representing an axis of symmetry. The figures are as follows:

- Row 1, Left: A shape with a top-left corner, a vertical line on the left, a horizontal line at the top, a vertical line on the right, a horizontal line at the bottom, and a vertical line on the far left.
- Row 1, Right: A shape with a top-right corner, a vertical line on the right, a horizontal line at the top, a vertical line on the left, a horizontal line at the bottom, and a vertical line on the far right.
- Row 2, Left: A shape with a top-left corner, a vertical line on the left, a horizontal line at the top, a vertical line on the right, a horizontal line at the bottom, and a vertical line on the far left.
- Row 2, Right: A shape with a top-right corner, a vertical line on the right, a horizontal line at the top, a vertical line on the left, a horizontal line at the bottom, and a vertical line on the far right.
- Row 3, Left: A shape with a top-left corner, a vertical line on the left, a horizontal line at the top, a vertical line on the right, a horizontal line at the bottom, and a vertical line on the far left.
- Row 3, Right: A trapezoid with a vertical line on the right side.
- Row 4, Left: A shape with a top-left corner, a vertical line on the left, a horizontal line at the top, a vertical line on the right, a horizontal line at the bottom, and a vertical line on the far left.
- Row 4, Right: A shape with a top-right corner, a vertical line on the right, a horizontal line at the top, a vertical line on the left, a horizontal line at the bottom, and a vertical line on the far right.
