

## Rekenen zonder getallen

Heb je al eens zonder getallen en alleen met symbolen gerekend? Probeer het eens uit! Dezelfde symbolen hebben ook hetzelfde cijfer.

$$\begin{array}{ccc} \boxed{\text{flower}} \boxed{\text{star}} & \div & \boxed{\text{diamond}} = \boxed{\text{square}} \\ \text{—} & & \times \quad \quad \quad + \end{array}$$

$$\boxed{\text{clover}} \boxed{\text{teardrop}} + \boxed{\text{flower}} = \boxed{\text{clover}} \boxed{\text{flower}}$$

$$\boxed{\text{diamond}} \boxed{\text{star}} + \boxed{\text{star}} \boxed{\text{star}} = \boxed{\text{flower}} \boxed{\text{teardrop}}$$

$$\begin{array}{ccc} \boxed{\text{clover}} \boxed{\text{star}} & \div & \boxed{\text{heart}} \boxed{\text{clover}} = \boxed{\text{star}} \\ \text{—} & & \times \quad \quad \quad + \end{array}$$

$$\boxed{\text{star}} \boxed{\text{star}} + \boxed{\text{circle}} = \boxed{\text{star}} \boxed{\text{envelope}}$$

$$\boxed{\text{heart}} \boxed{\text{bomb}} + \boxed{\text{X}} \boxed{\text{circle}} = \boxed{\text{star}} \boxed{\text{heart}}$$
