

## FIGUREN SPIEGELN

Ergänze so, damit die Figur achsensymmetrisch ist!

The grid contains four rows of reflection exercises. Each row has a vertical red line of symmetry. The figures are as follows:

- Row 1:** Left: A shape with a vertical left edge, a horizontal top edge, a vertical right edge, a horizontal bottom edge, and a vertical right edge. Right: A stepped shape with a vertical left edge, a horizontal top edge, a vertical right edge, a horizontal bottom edge, and a vertical right edge.
- Row 2:** Left: A stepped shape with a vertical left edge, a horizontal top edge, a vertical right edge, a horizontal bottom edge, and a vertical right edge. Right: A stepped shape with a vertical left edge, a horizontal top edge, a vertical right edge, a horizontal bottom edge, and a vertical right edge.
- Row 3:** Left: A stepped shape with a vertical left edge, a horizontal top edge, a vertical right edge, a horizontal bottom edge, and a vertical right edge. Right: A trapezoid with a vertical left edge, a horizontal top edge, a vertical right edge, and a horizontal bottom edge.
- Row 4:** Left: A shape with a vertical left edge, a horizontal top edge, a vertical right edge, a horizontal bottom edge, and a vertical right edge. Right: A stepped shape with a vertical left edge, a horizontal top edge, a vertical right edge, a horizontal bottom edge, and a vertical right edge.
